

Reloading 101

\$300

Continuing Ed Only – not for college credit

PLEASE NOTE – THE CONTENT OF THIS COURSE WAS REVISED FROM THE ORIGINAL DESCRIPTION ON APRIL 8, 2021 IN ORDER TO COVER RIFLE AND HANDGUN LOADING

A week-long course covering metallic reloading is designed to enable shooters with little or no prior experience in reloading to acquire the necessary knowledge, skills, and attitude to produce safe, consistent and accurate reloaded rifle and handgun ammunition.

The class includes discussion and hands-on instruction. We will cover reloading safety, case preparation, primer selection, powder, bullets, reloading equipment; and the use of manuals, ballistic tables and component assembly.

Rifle and handgun calibers: new modern calibers, old and discontinued, target loads, hunting loads, black powder loads.

We will spend three days in lecture and demonstrations. On the last two days students who wish can load a small amount of ammo of their choice. Those wishing to load on the last couple of days, will need to supply the following:

Reloading dies

Shell holder

Powder

Primers

Bullets

Brass (cases)

Non-loading students on the last couple of days are encouraged to observe and watch the different processes.

TSJC will supply reloading presses; however, you are welcome to bring your own if you choose

Recommended reading prior to class - Any of the following texts are excellent:

Lyman Pistol & Revolver Handbook

Western Handloading Guide

Any of the loading manuals offered by the bullet or powder companies.

Any questions concerning the class can be directed to the instructor, Bob Stahl, at 720-881-2929

Bob Stahl

Your Instructor: Robert Stahl (Bob) Certified NRA Metallic & Shot Shell reloading instructor. Over five decades of loading ammunition at all levels. Owner of Colorado Custom Cartridge Co. Federal licensed ammunition manufacture with over 400 calibers being offered. Specialize in unique calibers that rare, discontinued or obsolete. Match grade ammunition, special loads for sub-sonic, hunting loads and more. Questions in regards to this course can be directed to Bob at customloads@msn.com or call 970-881-2929
